(Special to The Times-Dispatch.)
RALEIGH, N. C., March 8.—Counsel
for Ernest Haywood, who shot and killed Ludlow Skinner here little more than a week ago, say this morning that they don't know when they will move for the much talked-of writ of habeas corpus. They hesitate to apply until they are absolutely sure of making their case, as a failure would only prejudice their case. They find it difficult to find witnesses who saw the first shot fired or saw the

a fallure would only prejudice their case. They find it difficult to find witnesses who saw the first shot fired or saw the two men together before the shooting. They want evidence to corroburate Robert N. Slimins, who says he saw an altercation in which Sidnner struck Haywood, who thereupon shot Skinner. The complaint is made that parties who have in private conversation have declared that they saw the shooting from the beginning, when asked for the statement with a view to making them witnesses deny outright that they saw anything. The high standing of Mr. S.mms puts beyond all question of doubt his statement of what he saw, but coroboration will be necessary in the court.

There are those who believe that the prosecution of Haywood will finally dwindle away, owing to the close relations of the families of the two men. Even now they mget many of them on the most pleasant ferms. Mr. John Winder, of Columbus, Ohio, who, as brother of Mrs. Skinner, will be the power behind the prosecution, if there is any, has returned home. A brother of Haywood was with him at the depot on most friendly terms, they having been old schoolmates. Armistead Jones, the solicitor for the district, who would naturally conduct the prosecution of Haywood for the State, announces that he will not take part in the case, his reason being that his wife is a cousin of Haywood. An effort is on foot to effect an exchange of courts between Judge Bryant and Judge Shaw for the March term, so that Shaw will sit on the case if it comes up, Judge Bryant being barred from sitting for the reason that he is an uncle of Mrs. Skinner.

Last night about 9 o'clock Warren Carver, ex-Senator of the North Carolina Legislature, living in Pearres's Mill township, on Sandy Run, five or six miles south of this city, while riding along the road, shot Andrew MoArthur, a negro of the neighborhood, the load of buckshot entering has head, chest and arms, and inflicting dangerous wounds.

As the two men approached each other Carver called: "Is that Jim Glimore?" at the same time raising his gun. "No," said the negro, "this is Andrew MoArthur; don't shoot me, Mr. Carver"—and instantly the gun was fired. Deputy Sheriff Monagian went out to Carver's place immediately and searched the house and surroundings from midnight until 5 o'clock this morning without finding Carver, though those who know the letter believe that he will come in and might choked up and coughing hard, take a dose of the Emulsion, and you will get immediate relief, where no cough medicine will give you relief. Gold Medal MURDERDONE BY A WOMAN

Police Satisfied That No Man Killed Burdick.

TELL SOME OF REASONS

Others Which They Say Settles Question Beyond Disputs-They Decline to Make Public Yet Awhile. There Was No Struggle.

(By Associated Press.)

BUFFALO, N. Y., March 8.—The
most important news which has been developed regarding the Burdick murder since the announcement of the crime itself, came to light this afternoon. It

Indisputable evidence shows that Burdick was lying on the couch in his den when the attack which ended his life was made.

There was no struggle worthy of the name of struggle, the unfortunate man succumbing immediately to the first blow struck. The assallant was a wo-

blow struck. The assaliant was a woman.

The first of these assertions—that Burdick was lying on the couch when murdered—is based on a most important
fact, which has so far been made public by the authorities. The most important and vital fact is as follows:

There was not even a spot of blood on
the floor of the "den," except just beneath the couch, and that had soaked
through from the couch. This fact is
evidence enough to satisfy the police
that Burdick was attacked while lying
down and almost literally defonsoless.
That the attack came unawares is that Burdick was attacked while lying down and almost literally defonseless. That the attack came unawares is shown by the further fact that there were no evidences of struggle in the room. It is probable that the first blow was sufficient to daze the unfortunate man and incapaciate him for resistance. NOT A MAN.

That the assailant was not a man, the criminal authorities believe from some things which have been disclosed and some things which they decline to make known. No one now doubts that a woman was with Burdick that night and in the den.

"But may not a man have struck the blows which ended Burdick's life?" was asked of one authority.
"The direct evidence of the crime was "the direct evidence" was the re-

"The direct evidence of the orime was concoaled by a woman," was the reply. "We are satisfied with that fact. And if it was a woman who piled the sushions on Burdick's body, it was swoman who killed him."

"The woman who struck the fatal blows had some things to do before she left the room, and to do these things she required a light.

But all who understand a woman's nature, no matter what sort of a woman it might be, knows that woman cannot bear horrbibs sights. Women who can commit murder cannot often bear the sight of the person who has been killed.

"This woman's nervous system could

"This woman's narvous system could not bear the appearance of a corpse with the head horribly mutilated lying on the couch, even for a few minutes, which it was necessary for her to remain in the room.

"It was no doubt necessary for this woman to put on her wraps after the murder. While she made her preparations for going on the street, therefore, she concealed the corpse of Burdick by covering it with cushions.

"These, however, are not the only reasons we have for believing a woman committed the crime. We have other evidence, but cannot disclose it now."

Successful Trip. THE COMING CONVENTION

Dr. Willingham Home After a

Great Arrangements are Being Made in Savannah for the Session of the Body, Which Will Be Held There.

Dr. Robert J. Willingham, secretary of the Foreign Mission Board of the Southorn Baptist Convention, returned yesterday from a most successful trip through the South. He comes back with a number of large and heart-warming checks in his pocket.

It is reported by Dr. Willingham that as a result of his trip a new and large hospital will be erected in Chinia wherein the heathens may be given doses of Christianity along with a little calomei and soda, It will be stationed at Hwanghein and will be for the particular

Hwanshein and will be for the particular benefit of Dr. P. W. Ayers, a medical missionary, supported by the women of Georgia. The secretary declares the hospital work to be meeting with very great success. He has also received the necessary funds for the erection of a similar hospital in Woochow, South Chinana memorial to Dr. John Stout.

RECEIPTS AHEAD.

The receipts this year are considerably ahead of what they were last year this time. The aggregate now amounts to about \$100,000. Another \$100,000 will have to be raised in two months, when the convention will meet. Up to this time Georgia leads with contributions of \$16,784.28 up to March 1st, but Virginia always comes out first in the end, and she will for certain do se again. Her contributions up to March 1st amounted to \$14,949.38.

In addition to the above Dr. Willings-

will for certain do so again. Her control butions up to Murch ist amounted to \$124,99.36.

In addition to the above Dr. Willingham brings back some most interesting information concerning the coming meeting of the convention. He has been to Savannah, where the body assembles on May 8th, and he has gotten some inside facts about the arrangements.

According to Dr. Willingham the convention promises to be one of the greatest in the history of the denomination. The Rov. John D. Jordan, D. D., pastor of the First Church, of Savannah, is preparing to have erected in a beautiful park in the city a large tabernacle for the beautiful grant in the city a large tabernacle for the beautiful Tybe an enjoyable one.

QUARTERING OF DELEGATES.

Further arrangements contemplate the quartering of many of the delegates on the beautiful Tybee Island and beach, just seventeen miles from Savannah. The Central of Georgia Rallway Company will run a special train to Tybee at the close of the night session of the convention and from Tybee to Savannah each morning after breakfast. The run will be made in thirly minutes. Therough arrangements have been made for those who wish to spend their nights on the beach and enjoy the breeze and the sea food.
